

# CONSERVATION & REBATES

California American Water offers rebates for water-saving appliances. To download an application and learn more about qualifying devices and other details, visit [www.californiaamwater.com](http://www.californiaamwater.com) or call the California American Water conservation office at (619) 522-6407.

## TOILETS

Toilets and urinals are the largest source of indoor water use in most homes and businesses. They can consume as much as 3.5 to 8 gallons per flush. Take advantage of savings on new high efficiency models:

- **\$50** – Residential High Efficiency Toilet 1.28 gpf or less

## CLOTHES WASHERS & DISH WASHERS

Clothes washers are generally the second largest domestic indoor water user. Low water consumption models for both clothes washers and dish washers can save money on your water and energy bills.

- **\$85** – Residential High Efficiency Clothes Washer (Water Factor 5.0 or less)
- **\$75** – Residential High Efficiency Dish Washer

## IRRIGATION

In many homes, automatic sprinkler systems are the largest source of water use. Over-watering is a common problem that in addition to wasting water is unhealthy for plants. New technologies adjust watering systems to local temperature and precipitation.

- **\$25/station** – Residential Weather-Based Irrigation Controller (For more than 1 acre)
- **\$80/controller** – Residential Weather-Based Irrigation Controller (For less than 1 acre of landscape)
- **\$4/nozzle** – Rotating Sprinkler Nozzles (minimum 15)
- **\$80/controller** – Soil Moisture Sensor System (For less than 1 acre of landscape)
- **\$25/station** – Soil Moisture Sensor System (For more than 1 acre of landscape)

## OUTDOOR ITEMS

Reduce your outdoor water usage by utilizing a pool cover to prevent 90% of evaporation loss and installing a rainbarrel to capture & store water for later use in your garden!

- **\$75/barrel** – Residential Rain Barrels: Minimum 50 gal
- **\$200** – Permanent Mechanical Pool Cover
- **\$50** – Manual Pool Cover

## RESIDENTIAL TURF REMOVAL

**\$1.50** per square foot for grass removed and replaced with drought tolerant plants. Maximum 1,000 square feet. Call before to check if funding is available.

## SAVE YOUR RECEIPTS

Receipts for all appliances and parts must be submitted with your rebate application. Rebates are available on a first come, first serve basis. Applications must be submitted within 120 days of appliance purchase and installation.

## FREE DEVICES

California American Water offers customers free water-saving devices including low-flow showerheads, faucet aerators, hose nozzles, moisture meters and more! Stop by California American Water's local office at 1025 Palm Ave, Imperial Beach, CA 91932 during normal business hours to pick up your free water conservation devices!

## FREE HOME WATER SURVEYS

All customers are eligible for a free program that will help you save water and money. With just a phone call, one of our friendly conservation specialists will visit your home or business to identify ways you can save

water both indoors and outdoors. The water audits take from 20 minutes to one hour, in which our conservation specialists will check your irrigation systems

for leaks, teach you to read your meter and create an individualized, annual watering schedule for your landscape. Contact our conservation staff today at (619) 522-6407 to make an appointment for this valuable service.
